Strategic Value Proposition

ERP Architecture Leadership for Modern Microsoft Environments

Unmatched Dynamics ERP Depth

20+ years across every major Microsoft Dynamics version, from Navision/Axapta through D365 F&SCM, rare institutional knowledge no junior hire can replicate

Azure-Native Integration Architect

Delivered REST API, EDI, and event-driven integrations using Azure's full integration stack. Service Bus, Logic Apps, Function Apps, and DevOps pipelines

AI-Ready ERP Professional

One of the few senior D365 developers actively applying LLM tools (Claude, Copilot, ChatGPT) to real ERP workflows, bridging legacy ERP with modern AI capabilities

Cleared, Multi-Industry Track Record

8 years in defense at Sotera; clients spanning manufacturing, retail, and professional services, 30+ client engagements with demonstrated delivery at enterprise scale
